Dear Mr. Blackham:

Your notice to conduct mining operations on the Rogers 35, 38 and 43 claims in T.32 S., R.10 E., Sections 4 and 5, has been received and accepted by this office. Your notice has been assigned case file number UT-057-HMRA-91-5N, and you are requested to reference this number in any future correspondence about the notice.

If you change your operations from what is described in your notice, please contact this office prior to the change. If your operations extend for more than one year, please advise this office of the status of your mining related activity on the anniversary date of your notice.

A copy of your notice will be forwarded to the Utah Division of Oil, Gas and Mining (DOGM); thus, you will not have to file it with DOGM. However, reclamation under this notice is required to conform to standards of the Utah Mined Land Reclamation Act. Also, all mining claimants and operators that plan to use, store, or divert water are required by Utah statute to notify the Utah Department of Water Resources at:

1636 West North Temple
Salt Lake City, Utah 84180-1203

As required by 43 CFR 3809 Surface Management Regulations, reasonable measures must be taken to prevent unnecessary or undue degradation of public lands during your operations. Please notify this office upon completion of operations and reclamation, so an inspection may be conducted on the site.

Acceptance of your notice will not now, nor in the future, serve as determination of the validity nor ownership of any mining claims included under your notice.

Thank you for submitting your notice. If you have any questions, please contact Francis Rakow.

Sincerely,

A handwritten signature in dark ink, appearing to read "Sheldon Wimmer". The signature is fluid and cursive, with a long horizontal stroke extending to the left.
